

We are looking for a Senior Infrastructure architect that can be based at Sweet Geeks H.Q, at our customers or in your own home office – whatever is more convenient in a given situation.

Sweet Geeks has been in rapid development since 2013 - especially over the last 3 years, and we therefore need even more Geeks who will help us and our customers. We are based at the AI Innovation house - "A digital AI lighthouse - a neutral innovation playground" in Vejle.

You will work with primarily internationally oriented customers, especially within Energy and Smart Industries.

We are seeking multiple infrastructure architects with a focus on defining the architecture for a next generation platform.

Professional qualifications

- Securing the architecture for large scale Software customers and colleagues
- Ensuring that cyber security is by default, and build into the solutions
- Securing those features are scoped, estimated, and designed in a proper way
- Ensuring that the infrastructure platform is compliant with the solution
- Supporting on development, Infrastructure setup and CI/CD Pipelines

In depth insight on one or more of below topics is required

- Kubernetes / Docker
- Helm charts
- KAFKA
- Trusted execution environments
- DevOps Pipelines
- Infrastructure design
- Virtualization

Personal qualities

- Can work independently but still be a team player
- Understands the importance of being the representative of the Sweet Geeks
- Has great thoroughness and a sense of quality in the work to be done
- Committed and motivated
- Good sense of humor
- Must be willing to work from the company's address, from the home office as well as at the customers' addresses

What we offer at Sweet Geeks

- Competitive salary according to qualifications
- Private health insurance
- Pension scheme
- A professional but also informal environment with a lot of flexibility
- A fantastic work environment in the brand-new AI Innovation House, with some talented Geek colleagues and some great opportunities to develop yourself both professionally and personally
- We have a wide range of benefits, such as a delicious canteen, Friday bar, access to Fitness and on top of that - exciting events both professional and social

Next step

If the above interests you, and you could see yourself as one of our new Geeks, then send an e-mail to: Co-founder/CTO Brian Heilskov at bdh@sweetgeeks.dk with your application, including your CV. If you have any questions feel free to call Brian on +45 4118 8402.
